WICHITA MARKETS

The Receipts of Stock at the Wichita Union Stock Yards for the Past 24 Hours Were: Cattle, Light; Hogs, 740. Shipments: Cattle, None; Hogs, None.

WICHITA, Sept. 14.

Cattle receipts were moderate today. There was a large run of stockers and feeders and also of heifers. The quality of the offerings was fair. A good bunch of black steers sold \$2.25. Other good sales were made on the better grades. Everything in the yards was sold.

The quotations here presented are to give the shipper's idea of the value of his stock. The yards do not grade sell within the limits of these quotations, according to the quality of offerings and the size of the stock. The market has changed when there has been a permanent change in the general market. The yards should be referred to to see the daily fluctuations.
